unityDesktop™ Professional

AUTOMATE YOUR ACQUISITION WITH UNITYDESKTOP™ PROFESSIONAL.

What happens to the documents you scan? Where do they go? What form do they take? How do they enter your workflow? With unityDesktop™ software, you'll have clear, simple answers to these questions – and your bizhub multifunctional device will become an even more powerful tool for speeding information flow and increasing productivity.

Instead of delivering documents to an Email account or an obscure network or local folder with no notification, unityDesktop makes scanning and acquisition a seamless process from bizhub to desktop. No more time-consuming multistep processes are needed to bring documents into your workflow; each new scanned image is automatically converted to a PDF file and made available in a simple PC desktop interface – all in the time it takes to return to your desk.

With unityDesktop, you'll have all the acquisition tools you need to manage scanned documents more quickly and cost-effectively – and a perfect match for your bizhub MFP.
